

Listen close to a secret that you will want to hear
Of a place called Nutwood Village so precious and dear.

This Village is smaller than you might expect,
So small in fact, you must watch where you step.

What may look like simple nuts on the ground
Could be a cozy house, a play-yard or town.
The people that live there are not people at all
But cute little animals smaller than small.

Nutwood Village is such a great neighborhood,
Where families are close and tradition is good.
The kids play cowboys, marbles and dolls
And come right in when their mother calls.

So peek inside and you will see
A treasured moment, a warm memory.
Take a glimpse and know your heart may swell
To see what life is ... in a nutshell.
